

BEING AND CIVILIZATION IN ISLAM

Yrd. Doç. Dr. Mennet AKGÜL (*)

Islam, in its true essence and spirit, is not merely theoretical, but also practical on a large scale. Its teachings match the physical laws of nature, and do not neglect the normal needs of human beings and their social life. So, for instance, the Islamic faith provides a way of life as suitable for the

So, according to Fazlur Rahman, 'Our' an emphasis up on the positive values

Western knowledge and theoretical frame which based on Deussen (1964)
