

THE EMERGENCE OF THE EXACT SCIENCE IN ISLAM

BİLAL KUŞPINAR

THE GENERAL ATTITUDE OF ISLAM TOWARD SCIENCE

Before we begin to discuss the subject of the exact science in Islam, we must first of all define the term "exact science".

Also have been signs of increased military spending - 1941-1945.

Alors, for the distribution of the heritage of the deceased (17)

ected in medicine and alchemy, and had even studied alchemy under

the best alchemists, but also extremely learned in mathematics.

with medicine, (40) Ali al-Taharî who was the teacher of Rhazes wrote

a work called '*Firdaus al-Hikmah*' i.e. Paradise of Wisdom concerned

chiefly with medicine. (41) The
